INNOVATION AND SOCIAL RESPONSIBLE

ColorADD, COLOR IS FOR ALL!

ColorADD is a unique, universal, inclusive and non-discriminative language that enables the colorblind to identify colors, with a wide infinite spectrum of use on companies/entities whenever color is a factor of identification, orientation or choice. It is estimated that 350 million people (about 10% of the male population worldwide) are Colorblind!

ColorADD, SIMBOLS THAT INCLUDED COLORS!

The ColorADD code is based on three graphic symbols representing the three primary colors. Through the acquired knowledge of the "Color Addition Theory" taught in the early scholar years, the symbols can be related and the entire color pallet graphically identified. Black and White appear to indicate dark and light tones. Symbols that include colors, becomes "a mental game" easy to memorize and apply in daily.

ColorADD, UNIVERSAL & CROSS-SECTOR

Each and every implementation is for everyone not specifically towards colorblind. ColorADD born for all, allowing integration while keep the privacy of colorblind - *including without discriminating*. ColorADD creates added economic and social value to companies or entities that use the code, by offering to their consumers an innovative product with a strong social footprint. ColorADD is already implemented in several areas such as Clothing, Textiles and Shoes (labeling and catalogs), Pencils, Textbooks Publishers, Transports (Subway maps), City Administration (e.g. Maps, Signage, Accessibility, Selective Garbage, Schools), Health (Accessibility and pharmaceutical labeling), Food Retails (Traffic light nutrition label), Photo luminescent Safety Signs, Didactic Games, Solid Waste Industry, General Industry (Products and Catalogs), Information Technology (APP, Color WEB Picker) among others, achieving expertise through strong partnerships and creating replicable clusters fundamental to deploy the code, cross sector at a global scale.

ColorADD SOCIAL | EDUCATION

Education is a strategic activity of our mission and consequently is included in our Pro-bono Licensing System. The Code became an integral part of Schools Communities, an unequivocally tool at the service of Teachers and Students, objectified in a protocol signed with the Portuguese Ministry of Education and Science, establishing an social responsible example to the World! (<http://www.portugal.gov.pt/pt/os-ministerios/ministerio-da-educacao-e-ciencia/mantenha-se-atualizado/20130327-mec-comunicado-coloradd.aspx>).
